opus:interactive

Always On.

//Agency Hosting Solutions

It's people who design, produce, use, support,

fix, upgrade and optimize technology.

And, without going into an IT telephony

conversation we are all about both.

Opus Interactive is dedicated to not only

providing the best technology and expertise,

but flexibility and individuality developing

customized solutions that serve the unique

personalities and needs of each client.

Technology, meet humanity.

Opus Interactive was started within an agency in 1996 to meet the need for a reliable, fast and responsive hosting solutions to support a broad range of client projects.

Today, we're an independently owned and operated organization, hosting numerous agencies and marketing teams, and we haven't forgotten our roots. In fact, our roots are the reason that so many agencies rely on us to keep their clients' websites available and running smoothly.

HOSTING CONSULTATION AND ENGINEERING

Our engineers specialize in designing customized solutions based on the requirements of our clients. We offer support for Ecommerce apps, reservation engines, proofing sites, dev environments and more. We're here to help. Opus Interactive will consult with you and your developers to gain a thorough understanding of your project needs to ensure the right solution is achieved.

AGENCY CLOUD AND VIRTUAL HOSTING SOLUTIONS

Take advantage of our virtual hosting environment for short-term marketing campaigns, interactive games, social media sites, blogs, landing pages or even large enterprise web applications.

Agency cloud and virtual hosting solutions means:
- Instant return on investment
- No hardware to purchase lowers total cost of ownership
- Pay only for the resources you use
- No long term commitments, but the same guarantees
- Environmental stewardship using sustainable, green hosting technologies

DATA BACKUP AND RECOVERY

Opus Interactive offers managed data recovery and backup solutions to protect your digital assets.

APPLICATION DEVELOPMENT MANAGEMENT

Opus Interactive has 10+ years of experience deploying and hosting applications for agencies and their clients. We assign an onsite Application Deployment Engineer to ensure that your needs are met before, during and after launch.

APPLICATION MONITORING SERVICES

Content monitoring is available for single pages to full featured applications to ensure your clients' sites and applications are functioning and displaying the way you intended.

SOLUTIONS FOR DEVELOPERS, RESELLERS AND SAAS VENDORS

Deploy your software as a SaaS offering for increased flexibility and control over updates, maintenance and security. If you develop or maintain 6 or more domains each year, we offer discounted reseller pricing.

Contact us today to learn more about our agency hosting solutions.

//Agency Hosting Solutions

No matter what function you're responsible for, we've been there. It's time to free up value IT resources and focus on your core business offering; focus on strengthening your client relationships rather than wrestling with hosting challenges.
