

//Colocation

Opus Interactive provides access, security, stability, connectivity, safety and dedicated experts to keep your business services going 24/7/365.

We work closely with you to ensure a customized colocation solution to meet your equipment needs in our state-of-the-art data center, with on-staff engineers and a centralized Portland location, with 100% uptime guarantee.

SECURITY FOR YOUR PROTECTION

Opus Interactive is dedicated to protecting your equipment and services with secured cardlock entry, man-traps, strict security policies and continuous monitored activity.

All hours 24/7/365 all building activity is monitored by our dedicated experts using secure CCTV systems to ensure quick response.

STABILITY TO KEEP YOU GOING

Opus Interactive maintains a state-of-the-art safe and cooled operating environment for your equipment. We implement redundant data connections and cooling, conditioned power, equipment spares, and a backup diesel generators that can run the entire data center for over 72 hours at full 8MW load. Our vendor agreements and hot and cold spares allow us to respond immediately to equipment failures to keep your services online and operating effectively.

DATA AND INTERNET CONNECTIVITY

Opus Interactive's redundant carrier neutral connectivity solutions means you can keep your customers satisfied and your business running smoothly. We're committed to maintaining fast and reliable server connectivity with redundancy, equipment and architecture.

SAFETY JUST IN CASE

Our certified data center sits on a computer-grade raised floor. Equipment is staffed, monitored and protected in the event of fire or other natural disaster. We've invested heavily to ensure the safety of your equipment and services.

SUPPORT WHEN YOU NEED IT

Opus Interactive is staffed with Certified Network Administrators, Microsoft Certified Engineers, Red Hat Certified Engineers, VMware Certified Engineers and Cisco Certified Engineers. Our engineers are trained in the latest methods and technologies. We're always on and available 24/7/365 to provide best-practice systems management and customer solutions to help you resolve issues with your equipment and service quickly and effectively.

OUR UPTIME GUARANTEE

Opus Interactive is committed to ensuring constant availability for our customers. Our colocation agreements include 100% network availability guarantees, coupled with industry leading, high payout SLA credits.

It's people who design, produce, use, support,
fix, upgrade and optimize technology.
And, without going into an IT telephony
conversation we are all about both.

Opus Interactive is dedicated to not only
providing the best technology and expertise,
but flexibility and individuality developing
customized solutions that serve the unique
personalities and needs of each client.

Technology, meet humanity.

//Colocation

CONNECTIVITY

- Carrier Neutral full redundancy
- Data Connections:
 - Integra Telecom
Metro Optical Ethernet (MOE)
+ 10gigE + gigE
 - TW Telecom Dual-Path Fiber,
10gigE + gigE
 - CenturyLink (Qwest)
Fiber, MOE
 - Tata Communications
Dual-Path Fiber, 10gigE + gigE
 - Internet Bandwidth currently
available – 40Gbps+
 - Additional Fiber Providers:
360 Networks, Above.Net,
AT&T, Broadwing, Level 3,
LS Networks, McLeodUSA,
NW Fiber, On-Fiber, Pacific
Telecom, Verizon, WCI, XO,
Comcast, Fibersphere
- High-capacity Lines up to 10gigE
circuits for cross connection
- Internet Connections: Multi-homed
architecture with four connections
to the Internet backbone, four
fiber vaults to building
- Fast Route Selection: BGP protocol
always selects the fastest routes
- Hot-swap Router Protocol (HSRP)

ACCESSIBILITY

- Conveniently located
- Brewery Blocks - Pearl District
- Downtown Portland, Oregon

SECURITY

- Cardlock Security, Man-traps
- Biometrics
- 24/7 Motion-triggered CCTV
Recorded Activity

SAFETY

- Building: Seismic, Secure, 80,000
sq. ft data center space
- Fire Suppression: Inergen, Dual
Interlock, pre-action VESDA

GUARANTEE

- 100% network availability
- SLA credits

EXPERTISE

- Certified Network Administrators
- Microsoft Certified Engineers
- Cisco Certified Engineers
- On-call 24/7

CERTIFICATIONS

- Certified Network Administrators
- Microsoft Certified Engineers
- Red Hat Certified Engineers

About Opus Interactive

Portland, Oregon based Opus Interactive is a full-service Managed Services Provider (MSP). Founded in 1994, the company provides managed hosting, dedicated virtual and standard servers, colocation, and hi-capacity Internet services. With its unique high-density data center model, advanced technology adoption, clean power utilization, and energy efficient hosting solutions, Opus Interactive works with organizations of all sizes helping them reduce IT infrastructure costs and consolidate their server footprint. They team with industry leading partners such as VMware, HP, Cisco and Microsoft. Opus Interactive is an accredited member of the International Managed Services Provider Alliance.
