

## About Opus Interactive, Inc.

Opus Interactive is a woman-owned cloud, colocation, and IT services company based in Portland, Oregon. Our mission-critical IT services deliver end-to-end support for Data Center Optimization Initiative (DCOI), shared services, cloud first strategies, and digital transformation. We've spent over 20 years building strong partnerships and honing a service mix that we deliver from Tier III datacenters located in Oregon, Texas, and Northern Virginia (FISMA high rated). A member of VMware and HPE partnership programs since 2005 and PCI-DSS, HIPAA, and SSAE 18 SOC 2 Type II audited, the company's past performance includes proven results since 1996.

### CLOUD COMPUTING & IAAS

Hybrid, private, public and multi-cloud solutions delivering scalability, reliability, and high-performance.

### VDI (VIRTUAL DESKTOP)

Virtual desktops and published applications securely delivered on demand through a single pane all powered by VMWare Horizon™.

### OBJECT STORAGE

Cost effective multi-cloud data storage at petabyte scale with low latency and concurrent accessibility.

### COLOCATION

Space, power, and cooling with RemoteHands/SmartHands services inside of state-of-the-art datacenters with PUE <1.3, 100% renewables, high security and low redundancy.

### BACKUP & DISASTER RECOVERY

Fast and reliable backup for virtual, physical and cloud-based workloads, powered by Veeam. Backup, restore and replication capabilities with advanced monitoring, reporting and capacity planning functionality.

### MULTI-CLOUD MONITORING & MANAGEMENT

Enforce policy and security, monitor performance and spend, and allocate resources across multi-cloud environments through a single interface that is the first complete end-to-end automation engine for AIOps that conforms to the United States Federal DODIN Approved Products List (APL) and FIPS 140-2 certified cryptography methods.
