

About Opus Interactive, Inc.

Opus Interactive is a woman-owned hybrid cloud, colocation, and IT services company based in Portland, Oregon. Our mission-critical IT services deliver end-to-end support for Data Center Optimization Initiative (DCOI), shared services, cloud smart strategies, and digital transformation. We've spent over 20 years building strong partnerships and honing a service mix that we deliver from Tier III datacenters located in Oregon, Texas, and Northern Virginia (FISMA high rated). A member of VMware and HPE partnership programs since 2005 and PCI-DSS, HIPAA, and SSAE 18 SOC 2 Type II audited, the company's past performance includes proven results since 1996.

CLOUD COMPUTING & IAAS

OpusCloud is an HPE and VMware-based IaaS solution with over 15 years of continuous improvement built in. We pair that with custom hybrid and multi-cloud solutions to deliver the best in security, reliability, and high-performance.

VDI (VIRTUAL DESKTOP)

Virtual desktops and published applications securely delivered on demand through a single pane all powered by VMware Horizon™ or Parallels.

OBJECT STORAGE

Cost effective data storage and archiving solution at petabyte scale with low latency, secure data protection and sovereignty inside of designated FISMA high facilities.

COLOCATION

Highly secure, resilient, and compliant colocation facilities located in top markets with PUE <1.3, 100% renewables, FISMA rating, and grid and connectivity redundancy.

BACKUP & DISASTER RECOVERY

Fast and reliable backup for virtual, physical, and cloud-based workloads, powered by Veeam. Backup, restore, and replication capabilities with advanced monitoring, reporting and capacity planning functionality.

MULTI-CLOUD MONITORING & MANAGEMENT

Monitor network performance and spend, enforce policy and security, and allocate resources across multi-cloud environments through a single interface. Our monitoring solution conforms to the United States Federal DODIN APL and FIPS 140-2 certified cryptography methods and incorporates AI for predictive analytics and continuous improvement.

NAICS Codes

518210 - Data Processing, Hosting, and Related Services

541513 - Computer Facilities Management Services
