Western Region Datacenter Portland (PDX-01)

TRUSTED ADVISORS SINCE 1996.

Hybrid Cloud & IaaS • Enterprise Colocation • IT Services • Hyperscale Connectivity •
DRaaS & Backup • Hybrid Cloud Monitoring & Management

Connectivity, performance, and end-to-end hybrid cloud for mission critical workloads.

Every datacenter is different. How they differ can impact price, performance, security, and reliability for your organization. Opus Interactive hand selects each datacenter with the intent to ensure your workloads get the best in interoperability, performance, security, and efficiency.

This LEED Silver Certified data center includes efficiency and inexpensive, clean and reliable power situated in heart of the PNW's most dense fiber networks and in close proximity to Pacific Submarine Cable connectivity. Empower your hybrid cloud strategy with 11 carriers on-site including the proprietary Opus dark fiber ring to access Pittock, NWAX, six internet exchanges, and onramps to public cloud providers and hundreds of regional carriers.

Whether you need a full hybrid cloud solution, dedicated IaaS, or a single cabinet of colocation, the Pearl District Portland data center is designed to meet the highest of connectivity standards ensuring your critical workloads get where you need, when you need.

Connecting people with technology is our life's work. The Opus team has spent over 25 years honing a mix of purpose-built hybrid cloud solutions that we deliver from world class data centers located in the most connected places on the planet.

SIGHT SELECTION CRITERIA

- 100% Uptime
- Tier III+ Rated Facilities
- Public Cloud Onramps and Interoperability
- Low-Cost Reliable Power
- High Security and Compliance
- Energy Grid & Regional Redundancy
- Premium Network Connectivity
- Expansion Potential
- Cloud Absorption Markets
- Partner Reputation for Reliability and Commitment to Sustainability

PDX-01 DATA CENTER	
Location	Portland Pearl District
Space	40,000 Square Feet
Power	8 Megawatts
Tier	Tier III+
Carriers	11 carriers on-site, carrier-neutral

NETWORK / CONNECTIVITY

To enable interoperability at the performance you need

- 11 Carriers On-Site
- Carrier-Neutral
- Opus Dark Fiber to Regional Carrier Hotels Available - includes NWAX and SIX Internet Exchanges
- Close Proximity to Pacific Submarine Cable Access
- Transport circuits, wavelengths, and dark fiber to Pittock Building carrier hotel available and to EdgeConneX in Hillsboro
- Long Haul Transport Circuits to Seattle's Westin Building available without dependency on Pittock Building
- Metro Ethernet (optical and copper) to Portland/Vancouver
- Meet-Me-Room
- Diverse Path Building Fiber Entries
- Low latency IP to Tokyo and other Asia destinations

POWER & EFFICIENCY

To meet your workload density needs and support continuous optimization with efficiency

- 8 MW
- 4x 2.5MW Transformers in 2N Config
- 3x 2.25MW Onsite Generators with 28,000 gallons of onsite diesel
- Multi-vendor, priority refueling contracts

SECURITY & COMPLIANCE

To protect your mission critical infrastructure

- Tier III & LEED Silver Certified
- ISO 27001 / ISO50001
- PCI-DSS / HIPAA / SOC 2 Type II
- CCTV

COOLING & SAFETY

To ensure your business continuity

- N+1 UPS Units
- 24 CRAC Units with N+1 Cooling
- VESDA smoke detection system
- Inergen fire suppression
- Pre-action sprinkler system

ON-SITE CARRIERS

TAILORED HYBRID AND MULTI-CLOUD SERVICES

To power digital transformation for your mission critical workloads

With more than 25 years of proven reliability as a cloud service provider, Opus offers end-to-end public, private, hybrid, and multi-cloud services to enable your growth and continuity.

NETWORK SERVICES

MIL-SPEC interoperability to ensure your mission critical workloads get where they need to be

Network connectivity to enable your hybrid and multi-cloud strategies - from on-prem to global as quickly and securely as you need. Carrier hotel with easy access to 90+ carriers in the area, public cloud on-ramps, and datacenter-to-datacenter interconnections.

CLOUD SERVICES

Tailored solutions with predictable costs - built for critical high compliance, high performance workloads

- **IaaS & OpusCloud** Multi-tenant and dedicated IaaS solutions built for cost control, high security, high-compliance, and reliable performance.
- **Cloud (Object) Storage** A cost effective solution for archived data that needs to be stored and accessed long term. Unlimited storage capacity and scaling with no costs for support, egress fees, or API requests.
- **Virtual Desktop Infrastructure** Maximize and secure telework solutions with Opus VDI. Deliver a virtual workspace environment managed from any device, anywhere, any time.
- **Hybrid and Multi-Cloud Solutions** End to end solutions to enable efficient workload distribution using on-prem, colocation, public, and private cloud solutions.

BACKUP AND DISASTER RECOVERY

Customized to fit the restoration needs of any workload with fully customizable RTO and RPO.

This managed solution delivers quick restore, predictable cost model, and unparalleled flexibility.

HYBRID CLOUD MONITORING

Monitor and manage your entire IT ecosystem from anywhere with this single-pane interface.

DISA-approved and offers full hybrid and multi-cloud support from underlying physical infrastructure through application, on-prem through public cloud infrastructure.

- Predictive analytics for continuous improvement

OPUS WHITE GLOVE SUPPORT

*Get the Opus White Glove Support with **no service contract fees.***

- 100% Uptime Guarantees
- SLA Guarantees
- 7x24x365 Access to Support Engineers
- 15-Minute Response Time (for business-critical support tickets)
- And MORE!

HYBRID CLOUD & IAAS

WITH UP TO

52%

PERFORMANCE
IMPROVEMENT

Opus Interactive's cloud services are built on the flexible OpusCloud architecture chosen by customers since 2005. An essential component for hybrid and multi-cloud strategies, our cloud services are housed in FISMA High facilities, they are tailored to optimize, store, process, and transfer mission critical workloads with reliability and security.

Opus annually commissions a third-party to compare price and performance of the HPE and VMware-based IaaS solution with Azure and AWS.

Opus' IaaS solutions are third-party verified to achieve:

- Up to 52% better CPU performance
- Up to 47x better storage write
- Up to 60% more storage read IOPs
- And MORE!

We operate with integrity to help customers improve performance, reduce costs, and optimize resources. Founded in 1996, Opus Interactive delivers tailored Hybrid and Multi-Cloud Solutions, IaaS & OpusCloud, Enterprise Colocation, Backup and Disaster Recovery, Object Storage, VDI, and Monitoring and Management Services. Our right-sized solutions are compliant with PCI-DSS, HIPAA, FedRAMP Moderate Ready, and SSAE 18 SOC 2 and delivered from Tier III+ data centers located in high connectivity markets (Hillsboro, Portland, Dallas, and Northern Virginia) - and backed by SLAs. Each facility partner is carefully selected for security, geographic redundancy, and efficiency to ensure end-to-end reliability and performance.

Opus Interactive is a woman and minority-owned enterprise with a commitment to accelerating the adoption of sustainable IT. With past performance that includes more than 25 years of proven results by bringing together solutions, compliance, and world class facilities, our end goal is optimized solutions that enable our customers to do great work. **Technology, meet Humanity.**
