Custom hybrid IT solutions that meet your security, price, and performance needs.

Trusted advisors since 1996.

Hybrid Cloud & IaaS ● Colocation ● IT Services ● Hyperscale Connectivity ●
DRaaS & Backup ● Hybrid Cloud Monitoring ● VDI ● Object Storage

Maximize your performance, security, and scalability.

We specialize in IT solutions hosted on high-performance infrastructure inside of world class facilities.

There is no one-size-fits-all solution. Every customer has different goals and different requirements that are needed to reach those goals and ensure business continuity. We offer more than two decades of experience hosting and managing critical IT infrastructures. Whatever the requirements, our approach is to engineer the best solution that delivers where, how, and when the enterprise needs it.

Our services include:
- **Hybrid Cloud & IaaS**
- **Colocation**
- **IT Services**
- **Network Connectivity**
- **Backup & DRaaS**
- **Hybrid Cloud Monitoring & Management**
- **VDI**
- **Object Storage**

HYBRID CLOUD & IAAS

Improve network performance, reduce cost, scale on-demand with custom cloud solutions.

- **VMware virtual datacenter**
- **Private cloud infrastructure**
- **Virtual compute environments**
- **Geo-diverse high availability architecture**

Launched in 2005, OpusCloud is a robust private cloud offering built on HPE's award winning server and storage hardware combined with VMware's compute, storage, and networking virtualization solutions. The solution has been third-party verified to outperform AWS and Azure for price and performance.

ENTERPRISE COLOCATION

Keep equipment investment safe, secure, and operating at peak performance in our state-of-the-art-facilities - each hand selected for location, security, network and low cost power with renewable energy.

- **Tier III+ facilities**
- **Secure cabinets, cages, suites**
- **Geographic location and grid diversity**
- **High security, low PUE**
- **100% Uptime guarantee**
IT SERVICES

Certified engineers deliver a suite of services to enable your hybrid solutions.

- **Managed Services**
- **RemoteHands and SmartHands**

NETWORK CONNECTIVITY

Network solutions to deliver your workloads across a hybrid environment - from on-prem to global hyperscale as quickly and securely as you need.

- **Cross-connects**
- **Low latency multi-homed internet**
- **AWS Direct Connect and Azure ExpressRoute**
- **Datacenter interconnection**
- **Global access with subsea cables**

DRAAS/BAAS

Ensure enterprise continuity, reduce costs, and improve service levels with easy-to-activate availability solutions. Protect on-premise applications to the cloud, and/or In-Cloud DR, protecting applications deployed in the cloud and replicated to one of our secondary cloud-enabled data centers.

- **Enable rapid backup and recovery**
- **Eliminate manual coordination of hardware and virtualization**

HYBRID CLOUD MONITORING SERVICES

Monitor the health and performance of your cloud environments, public, private, and hybrid. Gain deeper operational views of your entire IT universe—across multiple technologies, vendors, and clouds.

- **Manage multi-cloud resources, apps, data, and devices**
- **Enforce policy and security across IT operations**

OBJECT STORAGE

Multi-cloud data storage at petabyte scale with low latency and concurrent accessibility.

- **Enterprise-ready scale out file, object and S3 REST API Storage**
- **Unlimited capacity and performance scaling**
- **Native multi-site geo-distribution**
- **Shared-nothing, distributed architecture - No single point of failure**

VDI

Virtual desktops and published applications that can be securely delivered on demand through a single pane all powered by VMware Horizon™ or Parallels.

- **Desktops and applications through a single platform**
- **Dramatically improves ROI**
- **Secures data and simplifies compliance**
- **Simplifies desktop and application management**

What you get when you choose Opus Interactive as your provider.

At Opus Interactive we appreciate the fact that you have a choice of service providers. We are also confident that if you choose us as your hosting provider, you'll discover a number of reasons why you made the right choice.

We continue to gain clients by delivering a high level of service and maintaining communication, flexibility, and quick response capabilities. The most effective hosting solutions are built on a strength and balance of technologies, expertise, disciplines, and customer commitment. We are able to make our customers successful because we operate on these key aspects:

✓ ## OUR CUSTOMIZED APPROACH
We understand that each customer has unique needs. So, beginning with initial contact we work with you to understand your business requirements and goals and then design solutions that deliver.

✓ ## OUR DEDICATED EXPERTISE
Our team of experts are committed to working closely with customers in order to engage the best innovative technology to solve problems and drive business success.

✓ ## OUR CERTIFICATIONS
Opus Interactive is experienced in the programs, systems, and technologies that businesses depend on the most. We're a proud member of world-renowned IT organizations and have invested the time and energy to offer you business-critical compliance requirements, including SSAE 18 SOC 2 Type II, PCI-DSS, HIPAA, FedRamp Moderate Ready.
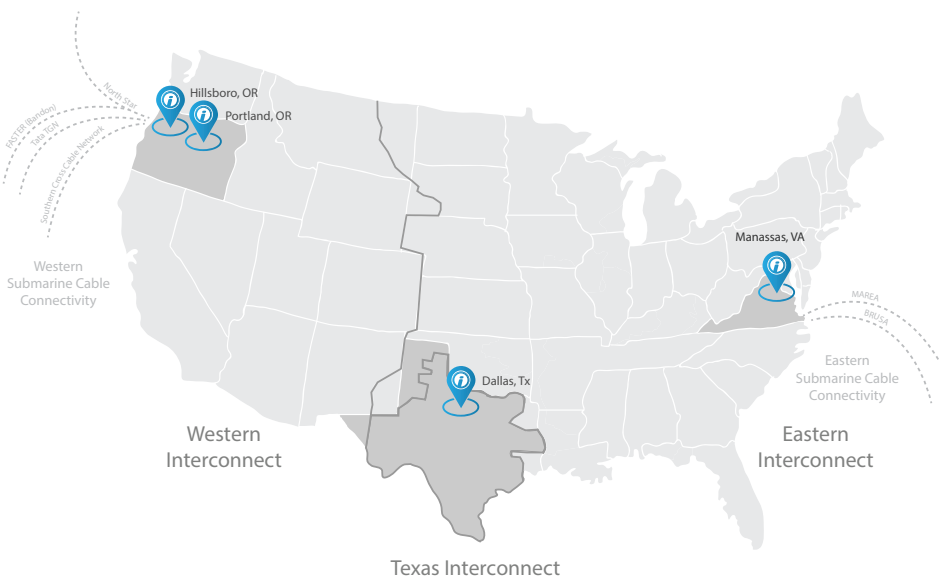

✓ ## OUR PARTNERSHIPS
We're proud to be associated with leading companies that are known for quality and reliability. We believe that the very best solutions require the best technology, including both hardware and software products and services that have been tried and tested.

✓ ## OUR PREMIUM FACILITIES
Opus Interactive combines class leading hosting facilities with our own highly resilient network offering the perfect environment for your IT infrastructure.

✓ ## OUR CUSTOMER COMMITMENT
From CEO to support technician, our team is made up of experts in cloud and colocation services who are dedicated to delivering what you need, when you need it.

ABOUT OPUS INTERACTIVE

Founded in 1996, Opus Interactive has earned a reputation for custom hybrid cloud solutions that fit unique requirements for security, scalability, cost, and future growth needs of its customers. An accredited member of the International Managed Services Provider Alliance, the Company operates from Tier III+ data centers located in Hillsboro, Portland, Dallas, and Northern Virginia. Through close partnerships with industry-leaders and a commitment to customer satisfaction, Opus offers Hybrid Cloud & IaaS *(with IaaS, Object Storage, and Virtual Desktop Infrastructure)*, Enterprise Colocation, IT Services, Network Connectivity, DRaaS & Backup, and Hybrid Cloud Monitoring & Management.

Opus Interactive is a woman and minority-owned enterprise that has worked closely with VMware and HPE partnership programs since 2005. With past performance that includes more than 20 years of proven results and current compliance with PCI-DSS, HIPAA, and SSAE 18 SOC 2, Opus helps customers reduce cost and optimize resources using efficient operations.
